

- ✓ Bilateral manual safety unlocking system.
- ✓ Double hydraulic cylinder and high strength chain drive.
- ✓ 24V low voltage control box
- ✓ 24V cylinder travel limit switch effectively protects cylinder and extends its lifespan.

LAUNCH 

FEATURES

- Each post is combined of two columns, which can be separated for the convenience of container transportation. The cable and oil pipe are fully concealed; with decent and elegant appearance.
- Wire rope equalization system forces synchronous movement of two carriages and effectively prevents vehicle from tilting.
- Door rubber pad protects car door from being damaged in collision.
- More lifting pads with different height meets the requirements for light lorries and SUVs.
- Passed 115% dynamic loading test and 150% static loading test.

TECHNICAL PARAMETERS

Rated load	3500kg
Lifting height	1850mm
Initial height	110mm
Lifting time	≤50s
Lowering time	≥20s≤40s
Passing width for symmetric installation	2436mm
Overall width for symmetric installation	3400mm
Passing width for asymmetric installation	2390mm
Overall width for asymmetric installation	3551mm
Overall height:	3840mm
Motor power	2.2kw
Motor voltage	3 phase/380V or Single phase/220V
Working noise	≤75dB(A)
Working oil pressure	16M Pa
