

## A/C Service Machine

Modularization design

Double fans

Friendly interface  
Run by hot key

Oil injection & drain  
controlled by switch

**Recovery. Vacuum. Recharge.**

LCH-A943 A/C Service Machine by LAUNCHER is the newest addition to the quality LAUNCHER line of products. It features a fast recovery speed for refrigerant gas R-134A or liquid and includes alarm and warning information. It is easy to operate with a friendly interface and is stable and reliable.

## Function

- | Full automatic, easy to operate
- | Control entirely by solenoid valves
- | Automatic recovering/recycling/recharge
- | Automatic vacuum
- | Automatic used oil drain
- | Automatic recharging with load cell
- | Manual recharging with can via the auxiliary port
- | Maintenance procedures
- | Electric scale calibration
- | Parameter setting

## Features

- | Cleans the pipeline of A/C system on-vehicle
- | Includes a variety of cleaning modes
- | Equipped with large-size observing window with LED backlight
- | Pressure gauges are installed vertically
- | Special designed oil separator with patented technology
- | Friendly interface
- | Auxiliary port

## Specifications

- | Power supply: AC220V~60/50Hz
- | Vacuum pump: 4.5CFM, 10Pa
- | Compressor: 1HP, 12cc
- | Load cell precision(tank):  $\pm 10g$
- | Tank capacity: 12L
- | LED display: 4 digits
- | R-134A refrigerant gas
